Spring cleaning

Your Chevy has weathered the winter, surviving potholes, road salt, and harsh temperatures. Now that warmer weather is on the horizon, stop in for a spring inspection to ensure your Chevy is functioning at its best.

Our GM-certified technicians will check the vital systems, including:

- Tires:** Inspect for excessive or uneven wear and inflate to proper pressure.
- Brakes:** Inspect the brake lines, hoses, and parking brake, as well as fluids and linings/pads.
- Suspension:** Rough roads take a toll on shocks, so an inspection will uncover any problems.

As the spring driving season begins, make sure your Chevy is road-ready.

AN AMERICAN REVOLUTION

THE ALL NEW CHEVY TAHOE.

More powerful Vortec™ V8 engine. All new design and styling. Best-in-class fuel economy*. Best-in-class ride and handling. The 2007 Chevrolet Tahoe has raised the bar.

Winning selections

Experience the award-winning 2008 lineup at [Dealership Name]. Whether you're looking for great value, fuel efficiency or versatility, there is a Chevy that fits your needs.

With numerous award wins including 2008 North American Car of the Year, the redesigned 2008 Malibu offers innovative styling and performance for incredible value. For power plus fuel economy, experience the new Tahoe Hybrid. Recently named Green Car Journal's 2008 Green Car of the Year, it features 2-mode hybrid technology that provides maximum fuel efficiency without sacrificing towing or payload capability. And, representing Chevy's long heritage, the Impala 50th Anniversary Edition debuts this spring.

Every Chevy offers rewarding ownership benefits, too. All 2008 models come with no-charge scheduled maintenance for 3 years/36,000 miles, plus a 5-year/100,000-mile powertrain warranty.

Come for a test drive and experience the next generation of Chevy style and innovation.

A PUBLICATION FOR THE CUSTOMERS OF ABC DEALERSHIP

Track-proven performance

SS Style

The Cobalt SS is as sporty inside as out. Its performance enhancements include SS-embroidered sport seats with suede-like UltraLux inserts. It comes in three interior color combinations: Ebony, Light Gray and Victory Red.

The new turbocharged Cobalt SS is ready for the street or track. The GM Performance Division developed this latest addition to Chevy's SS lineup, which boasts a 2.0L turbocharged and intercooled engine with 260 hp. It delivers track-proven performance capability, premium amenities and an estimated 30 mpg in highway driving.

The Cobalt SS's short-throw 5-speed manual transmission comes equipped with a "no-lift shift" feature that maintains turbo boost pressure during gear changes. A driver-selectable competition mode with launch control can be enabled from the cockpit to maximize performance.

To create a fully balanced package, the FE5 sport suspension was tuned on the twists and turns of Germany's Nürburgring racetrack. Fixed-caliper Brembo brakes in front and vented discs with single-piston calipers in the rear ensure the Cobalt stops as confidently as it starts.

The Cobalt SS looks the part, with a unique front fascia, model-specific rocker panels, forged 18-inch alloy wheels, a polished exhaust outlet, and a choice of high or low rear wings. Inside, drivers will find an A-pillar mounted boost gauge and SS-exclusive sport seats. Experience track-level performance on the street with the new turbocharged Cobalt SS. ■
